June 14th, 2012

## **Great Lakes Restoration Initiative (GLRI)**

- Five year Great Lakes Initiative.
- \$300,000,000 in 2012
- Provides funding for the Great Lakes Legacy Act (GLLA)

### **GLRI's Five Priority Focus Areas:**

- Cleaning up toxics and toxic hot spot areas of concern.
- Combating invasive species.
- Promoting near-shore health by protecting watersheds from polluted runoff.
- Restoring wetlands and other habitats.
- Raising public awareness, tracking progress and working with partners.

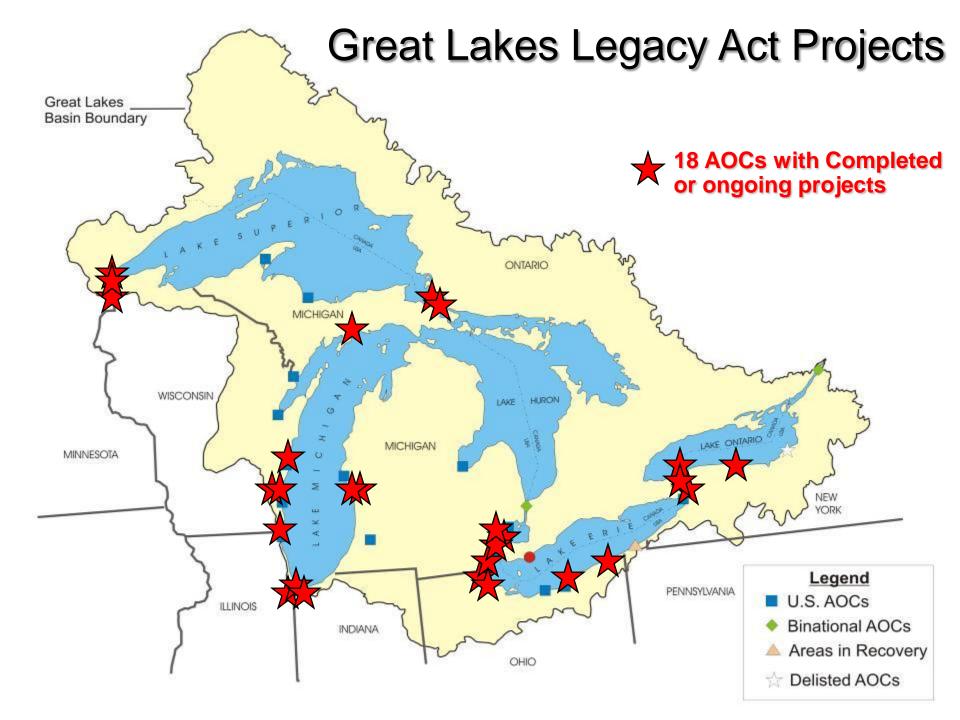

# **Great Lakes Legacy Act**

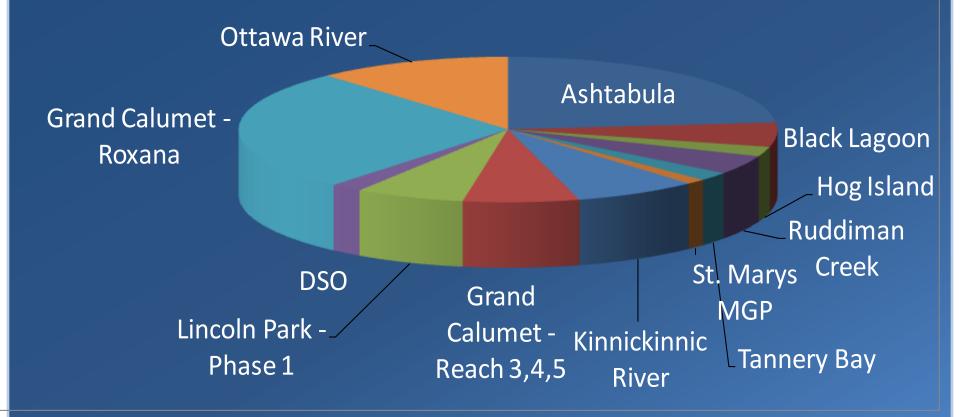

- ⇒Goal: Accelerate the pace of sediment remediation at Areas of Concern (AOCs)
- → Mechanism: Use collaborative approach to conduct sediment remediation
- → Minimum: 35% Non-Federal match required
- ⇒Implemented under the Great Lakes Restoration Initiative (GLRI)

#### **GLLA Remediation to date:**

2,132,000 cubic yards remediated

# **GLLA Remediation Projects for 2012**

- River Raisin, Monroe, MI

Sheboygan River, Sheboygan,
 WI

 Roxana Marsh, Hammond and East Chicago, IN (Completed)

## **Summary of River Raisin GLRI Activities**

### GLLA Project

- \$17.3M
- State of Michigan (MDEQ) is NFS
- Dredge ~109,000 cubic yards
- Work will take place in summer and fall 2012

## **Summary of River Raisin GLRI Activities**

#### Habitat Projects

- \$6.1 million in total funding provided in 2010-2012
- Project specifically identified by the River Raisin Public Advisory Committer as required to address the historical loss of fish and wildlife habitat within the Area of Concern
  - Fish Passage Phases 1 & 2
  - Sterling Island Habitat Restoration Project
  - Marsh and Prairie Restoration Project
  - Wetland Enhancement Project
